

Ata Asadzadeh

Front-End Developer

Profile Summary

I build modern, high-performance web applications using React and Next.js, with a strong focus on scalability, accessibility, and clean architecture. My goal is to deliver production-ready interfaces that not only look good, but work flawlessly in real-world products.

Tasks and Achievements

At Pensive Brains, a knowledge-based software company, I work as a Frontend Developer building modern, responsive web applications. I collaborate with designers and backend developers to deliver scalable, user-focused digital products, with a strong emphasis on performance, accessibility, and clean implementation.

Projects

Ahuratoon

For: Ahuratoon (Own Product)

Ahuratoon is a self-initiated digital product where I handled the entire frontend development process – from translating design concepts into responsive interfaces to optimizing performance and delivering a smooth, user-focused experience.
